	Total RP				100,00%

Comment of Reference Portfolio Advisor

In April 2023 a further notional investment was made. The Reference Portfolio Advisor decided to notionally add certain security issued by GSA V German Sustainable Assets V GmbH as an additional Reference Debt Security Component to the Reference Portfolio. As this investment was not in the initial Reference Portfolio on the fixing date, please see description of this additional Reference Debt Security Component in the separate document 1.6 for April 2023. The Notional Acquisition Cost of this Reference Debt Security Component comprised in total approx. 1% of the Reference Portfolio Value and was funded from the Notional Cash Position. The value of the Reference Fund Components and Reference Debt Security Components comprised approx. 96% of the Reference Portfolio Value at the end of April 2023. Except for a mandatory Notional Cash Position buffer, the Reference Portfolio is considered fully invested and has achieved its goal of keeping the Notional Cash Position below 5% of the Reference Portfolio Value. During a ramp-up period, further capital that will still flow in through sales on the stock exchange, will be used to further increase existing notional investments and/or make additional notional investments and to keep the Notional Cash Position below 5% of the Reference Portfolio Value.
