Comment of Reference Portfolio Advisor

Since last valuation on 28th February 2023 no further notional investment were made in March 2023. The value of the Reference Fund Components and Reference Debt Security Components comprised approx. 96% of the Reference Portfolio Value at the end of March 2023. Except for a mandatory Notional Cash Position buffer, the Reference Portfolio is considered fully invested and has achieved its goal of keeping the Notional Cash Position below 5% of the Reference Portfolio Value. During a ramp-up period, further capital that will still flow in through sales on the stock exchange, will be used to further increase existing notional investments and/or make additional notional investments and to keep the Notional Cash Position below 5% of the Reference Portfolio Value.
